

SG-4559

Filter Alerts by User Group

Mark Dunthorn

Current Behavior

- FHP CAD alerts globally filtered by County and Roadway

```
<driver xsi:type="FhpIncidentDriver">
  <identifier>FhpIncidentDriver</identifier>
  ...
  <counties>
    <county>Miami-Dade</county>
    <county>Monroe</county>
    <county>Broward</county>
  </counties>
  <roadways>
    <roadway>I75</roadway>
    <roadway>I95</roadway>
    <roadway>I195</roadway>
    <roadway>I395</roadway>
  </roadways>
  ...
</driver>
```

Proposed Behavior

- Filter set assigned to user group – operators in that user group would only receive alerts in that filter set
- Multiple filter sets to distribute alerts by region
- Filters to apply to all alert types, not just FHP CAD

SG-4545

Multiselect IDS Alerts for Dismissal

Mark Dunthorn

Current Behavior

- Alerts can only be handled one at a time
- For non-24/7 operations this can lead to unhandled alerts stacking up

Proposed Behavior

- Provide a way to dismiss many alerts at once
 - Multi-select similar to the Device Messaging dialog

SG-4561

Add “Displayed on Map” Filter to Link Editor Window

Mark Dunthorn

Behavior before R7.0

- “Shown on Map” filter allowed the Administrator to only show links that were not already drawn on the map.

Edit Link Placement - Windows Internet Explorer

Filters:

Source:	Shown on Map:	Roadway:	Direction:
All	All	All	All

Links:

- 10E@295
- 10E@Chaffee
- 10E@Otis
- 10W@295
- 10W@Chaffee
- 10W@Otis
- 202E-1
- 202E-2

Add Non-TSS Link

Link ID: None selected
Number of Points: 0

Place Points on Map
Zoom to Link on Map
Remove From Map
Edit Non-TSS Link
Delete Non-TSS Link
Remove Unused Nodes

Save Link Map

Current Behavior

- Filter by Roadway and Direction are still there
- Source is no longer needed
- But there's no way to filter by "Displayed on Map"

TSS Link Configuration

Name	Detector	Roadway	Direction	Speed Limit	Length	Publish to 511?	No. Lanes	Arter
075SB000.1-DS-link1	FLD6DOT075SB000.1-DS	I-75	Southbound	40		<input type="checkbox"/>		
075SB000.1-DS-link2	FLD6DOT075SB000.1-DS	I-75	Southbound	40		<input type="checkbox"/>		
AVI1-link1	AVI1	95 Express	Northbound	55	7.5	<input type="checkbox"/>	1	
DS-0001S	DS-0001S	I-95	Southbound	45		<input type="checkbox"/>		
DS-0002N	DS-0002N	I-95	Northbound	45		<input type="checkbox"/>		
DS-0003N	DS-0003S-0003N	I-95	Northbound	45		<input type="checkbox"/>		
DS-0003S	DS-0003S-0003N	I-95	Southbound	45		<input type="checkbox"/>		
DS-0004N	DS-0004N	I-95	Northbound	55		<input type="checkbox"/>		

SSUG

Proposed Behavior

- Add a way to filter by “Displayed on Map”
 - Button in ribbon?
 - New column? (could be hidden by default)
- Anything else missing in the new dialog?
