Current Topics

- C2C Reliability

  o Latest C2C patch has significantly improved C2C reliability for D4, D6, and OOCEA

  o No additional C2C issues have been noted

- AVL-RR mobile device reconnection issue

  o Batch processing approved at 5/22/12 CMB

- o D6 noted that new contract is being awarded that includes the implementation of batch processing

- Recommendation for FP 101 and FP 1526 *(see action item discussion above)*

- SunGuide R6.0 GUI Discussion

    - o Ideas were discussed during 5/22/12 CMB

    - o Arun noted this is a major change moving from IE to WPF

    - o John recommended a dedicated meeting to discuss these changes

    - o **ACTION ITEM**: John will coordinate a meeting to discuss R6.0 GUI changes and provide outline of changes and ideas prior to meeting

- Adding additional tier to User Permissions *(see action item discussion above)*

- ODS – TvT report/data usage and FP 1589 redundant records

    - o Immediate solution to FP 1589 is to purge old TvT data that was saved prior to database configuration change

    - o Alternative solution would include making a software change to ODS to handle both the old and new database records

    - o **ACTION ITEM**: CO to ask districts how is archived TvT data being used, which would provide justification for whether or not the software change to ODS is needed

- SunGuide project website *(see action item discussion above)*

Open Forum
