The purpose of this project is to improve intersection capacity and address solutions for future traffic demand. The project will also improve safety and enhance modal interrelationships with bicycle, pedestrian, and transit modes. The project limits extend in the east-west direction along SR 5/ US 1/Federal Highway and SR 838/Sunrise Boulevard between approximately NE 15th Avenue to the west and approximately Middle River Drive to the east with the study area extending slightly further to the east to NE 24th Avenue/Bayview Drive for approximately 1 mile in length.
