The Florida Department of Transportation (FDOT) is hosting a Public Kick-Off Meeting for the Project Development and Environment (PD&E) Study for the above referenced project. A PD&E Study is FDOT's process to evaluate the social, economic, and environmental impacts associated with a planned transportation improvement project. The purpose of this project is to provide system linkage in the roadway network, reduce area congestion by providing an additional north-south corridor to improve movement of people and goods, improve travel, and safely accommodate bicycles and pedestrians to support the surrounding community's transportation needs.

The environmental review, consultation, and other actions required by applicable federal environmental laws for this project are being, or have been, carried out by FDOT pursuant to 23U.S.C. § 327 and a Memorandum of Understanding dated May 26, 2022, and executed by the Federal Highway Administration (FHWA) and FDOT.

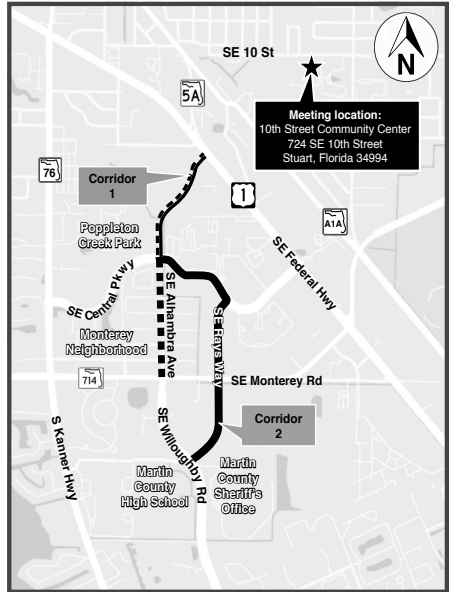

The Public Kick-Off Meeting is scheduled for **Wednesday, June 25, 2025 (Virtual)**, and **Thursday, June 26, 2025 (In-Person)**:

- **Virtual:** Persons who do not wish to attend the Public Kick-Off Meeting in person can join the meeting virtually at **6:00 p.m. on Wednesday, June 25, 2025**. Questions and comments may be submitted via the virtual chat feature for a project representative to address during the virtual Public Kick-Off Meeting.

Notices are being sent to all property owners and tenants located within at least 300 feet on either side of the project and to other public officials, regulatory agencies, organizations, and individuals interested in the project.

Community feedback is at the core of all we do. FDOT works with the public to balance their community vision with the community's transportation needs. This is routine on all our projects to ensure Florida's infrastructure is safe, resilient, and efficient for many years into the future.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status. Persons who require accommodations under the Americans with Disabilities Act or persons who require translation services (free of charge) should make this request to the FDOT Project Manager at least seven days prior to the meeting.
